Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 49 is rejected under 35 U.S.C. 102(b) as being anticipated by Piraka (US Pat. 5,632,751).

Piraka discloses a method for suturing a portion of biological tissue, the method comprising releasably holding a needle with a first needle holder (Fig. 4), the needle being attached to a suture (Fig. 4); placing the first needle holder in a proximal position relative to a portion of biological tissue and placing a second needle holder in a distal position relative to the portion of biological tissue, so that the portion of biological tissue is between the first needle holder and the second needle holder (column 4, lines 61-67)(column 5, lines 1-8); applying a force to the needle by engaging the needle with a needle driver and extending the needle driver in the distal direction, thereby transferring the needle from the first needle holder, through the portion of biological tissue between the first and second needle holders, to the second needle holder (Fig. 4)(Fig.21); disengaging the needle driver from the needle and retracting the needle driver in the proximal direction away from the needle and the first and second needle holders (Fig. 4)(Fig.21); laterally withdrawing the first and second needle holders from the portion of biological tissue (column 5, lines 4-37); exchanging positions of the first and second

needle holders so that the first needle holder is in a distal position relative to the second needle holder and the needle(column 5, lines 4-37).

Allowable Subject Matter

Claims 6 and 43-48 are allowed.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
